Purity awake, Air alive

AIR PURIFIER

Purity awake, Air alive.

Always give the best and be the first to take
care of the air you breathe

With the health conscious rising and the air polluting, our worries are getting more and more.

Knowing this feeling, our team put a lot of effort into this project for one and half an year, passed through design, test, improve, and finalize.

We successfully developed this multi-functional air purifier-"Pure Aria".

"Pure Aria" is the first portable air purifier that perfectly combines 4 functions:

Sterilize

Filter

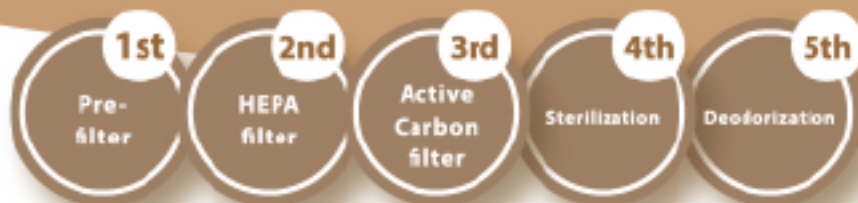

Deodorize

Anti-mold

5 Stage Protection

Applying both three-layer purification system and dual-wavelength UV mechanism to form a 5-stage protection

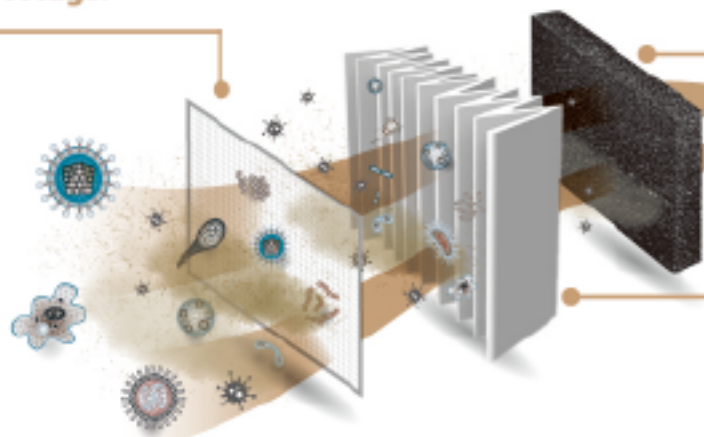

Medical 3-layer filter system

Round-shape design –
Filtering efficiency reach 3 times higher
than common flat ones.

1st Pre-filter-

Block big dust, hair and pollen at the
first stage.

3rd Active Carbon filter-

Capture the bad odors & filter
harmful substances (VOCs, HCHO...).

2nd HEPA H13 medical filter-

Filter PM2.5 to 99.95%, including mold,
bacteria, and dust mite.

UV-C tube Dual wavelength

Real purity!! Not just filtration, we give
more focus on "Sterilizing" after the filtering
stage. Equipped with the best dual wavelength
of sterilization & deodorization.

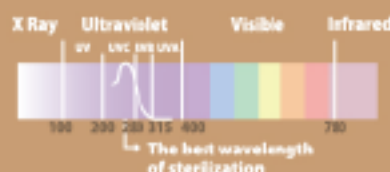

254nm
